

FEBRUARY 14, 2015

Our Mission is to rescue Labrador Retrievers from shelters, animal control facilities and abandonment, then place these Labs in loving, caring homes.

HEART OF TEXAS LAB RESCUE

Heart of Texas Lab Rescue is a Non Profit Organization dedicated to the rescue, rehabilitation and adoption of Labrador Retrievers in Central Texas. The Labrador Retriever, recognized by the American Kennel Club 21 years in a row as the #1 breed, is known for its gentle disposition, its keen ability to track and hunt and its loyalty to its owners. Unfortunately, it is also one of the most abandoned and abused dogs in Central Texas.

Heart of Texas Lab Rescue focuses on saving Labrador Retrievers from the shelters and pounds throughout Central Texas. In the past 15 years we have saved over 1,000 Labs and our rescues are often the dogs that are abandoned, injured or neglected. Many are infected with heartworm and/or require expensive medical treatment.

Our organization is funded 100% through donations, fundraisers and the charity of our wonderful volunteers.

Our largest fundraiser is held once a year. This year, on February 14, 2015, "For the Love of Labs" will be held at the First Texas Honda dealership in Austin, Texas. With guests from all over Central Texas, our silent auction is one of the highlights of the night and provides our organization with the funds to continue our loving mission.

Please consider donating to our fundraiser by providing an item for our silent auction. Or place an ad in our event program that will highlight your business as a donor to our cause.

The 1,000 plus Labrador Retrievers who have found loving homes thank you for considering our organization and ask that you help the thousands of neglected, abused and injured Labs waiting for our assistance and love. Visit our website at HOTLabRescue.org to see the Labs that are currently in our program and the wonderful "Happy Tails" of those that have found their forever homes!

\$75.00 Saves one Lab from euthanasia from an animal control facility

\$100.00 Provides basic medical services – including spay/neuter

\$250.00 Two weeks of obedience training/creating skills for adoption

\$500.00 Administers the treatment for Heartworm for one Lab.

We proudly recognize our 2015 event sponsor:
